LESSONIA

HEMP

Our **HEMP** range offers a unique & powerful skincare experience for your consumers. Our products contain two trendy ingredients **Hemp oil** and **CBD** to create a relax & well-being moment for men and women.

TWO POWERFULL INGREDIENTS

• **CBD** *(in option)*

CBD (cannabidiol) is one of the main substance contained in the hemp leaves. CBD is known to relax and to soothe skin and spirit. This ingredient is also known to reduce skin imperfections and to regulate sebum as it is not comodogenic.

• **HEMP OIL**

Organic certified oil from hemp harvested in France. This oil is known for its moisturizing, nourishing, calming and antioxidant properties due to its richness in essential fatty acids Omega 3 and Omega 6.

CONFORM TO REGULATIONS

Our HEMP range product is **free of THC**, the forbidden psychotropic substance contained in hemp leaves.

Lessonia customizes the CBD origin (natural or synthetic) depending on the countries where your product will be sold.

TO ANSWER TRENDS & CONSUMERS NEEDS

30-45 years old urban people
