

ALGINATE MASK

PEEL- OFF MASKS

SECOND SKIN - MADE IN FRANCE

LESSONIA
cosmetics + ingredients

WHAT IS A PEEL-OFF MASK?

Essential for almost all the skincare face treatments, the peel-off mask is a powder mask made from sodium alginate. Mixed with water, it provides a pleasant and creamy texture that's easy to apply to the face. At the end of the treatment, the peel-off mask can be removed like a second skin, with no tightening effect.

A SPA QUALITY GRADE MADE FOR ALL

Peel-off masks are usually used on SPA and beauty institutes as a specific skin care treatment.

This professional grade is now available for all users to bring this specific professional treatment at home.

100% MADE IN FRANCE

All the manufacturing process is made in our industrial site located in Brittany. **We guarantee a 100% made in France manufacturing**

All the peel-off masks from LESSONIA can be claimed “100% made in France” to underline the quality level as the french standards and take advantage to the “French style”.

HOW TO USE A PEEL-OFF ?

ENHANCE THE SKINCARE ROUTINE

When it is mixed with water, the algae set and the mask rubberized after few minutes to form an homogeneous mask. After 10-15 min, it is removed as a second skin.

1 MIX POWDER WITH WATER

2 APPLY A THICK LAYER TO THE FACE

3 LEAVE IN 10-15 MIN.

4 REMOVE IT AS A SECOND SKIN

PEEL-OFF COSMETIC PROPERTIES

- It creates a **thin occlusive coat** on the skin that **increase the pore dilatation**. It **facilitate the active ingredients penetration**
—————
- It **detoxifies the skin** thanks to a **sudation effect**
—————
- When it is used with **cold water**, it **becomes astringent**, when it is used with **warm water**, it **activates micro-circulation**.

HIGH QUALITY GRADE OF ALGINATE

This specific grade, named **GULURONIC ALGINATE**, makes very strong bounds and facilitate to remove the mask in one peace without tightening effet.
